

DEALER INSTITUTE

DEALER MANAGEMENT

DEVELOPING PEOPLE TO

GROW YOUR BUSINESS

DEALER INSTITUTE

IMPROVED OPERATING EFFICIENCY AND SUPERVISOR EFFECTIVENESS INCREASES PROFITABILITY.

Managing a dealership is a combination of managing business expectations, achieving employees' peak performance and providing excellent customer service. Each day at the dealership is an opportunity to use technical and people skills to improve operating efficiencies and employee and customer satisfaction. You know this adds profits to your financial bottom line.

The Dealer Management course provides the solutions to implement systems, processes and tools that will drive efficiency and give you the competitive edge in a demanding marketplace.

For over 130 years, dealers have trusted the Association to be the industry's advocate and provider of solutions. The Dealer Institute isn't just an expansion of current services, it's a comprehensive reorganization of the educational arm of the Association.

John Schmeiser

DEALER MANAGEMENT

OVERVIEW

The Dealer Management course provides leaders the training necessary to improve dealership efficiency, profitability and organizational proficiency. The inclusion of each department ensures the creation of a complete dealer management system. The curriculum is delivered over the course of 8 months via three phases. Each phase consists of two modules. Each module is 1.5 days sequentially delivered over three full days.

Recommended attendees are dealer principals, executive management, branch managers, controllers, HR managers, sales managers, service managers, parts managers, aftermarket managers and anyone looking toward key leadership positions.
